---

I am currently in search of employment as a Visual Effects Artist. My specialties include Massive brain building and Motion Capture within Massive. My subspecialties include lighting and compositing. Please find enclosed my resume showing my education, experience, and background.

I have six year working in retail while going to school. For four of those six years I was a manager. I was trained to work with employees to make sure that the job gets done and the client is happy. This experience allowed me to expand my knowledge of management and teaching other employee on specific techniques and demonstrations.

I figured out that I wanted a career in Visual effects the first time that I sat down at a computer and opened up my first 3D software, and I believe I would excel in career in Visual Effects, not only for my sense of detail but my love for problem solving.

I would like to thank you for your time and consideration.

Sincerely,

Ryan K. Osteen
